

Seeking Applicants for the Perry Outreach Program

We're very excited to announce an upcoming Perry Outreach Program on Saturday, October 27, 2018, at the Texas Scottish Rite Hospital for Children in Dallas, TX.

The Perry Outreach Program is a free, one-day, hands-on experience for high school women who are interested in pursuing careers in medicine and engineering. Students will hear from women leaders in these fields and try it for themselves by performing mock orthopedic surgeries and biomechanics experiments. We are now seeking applicants for our Dallas, TX program.

Participants should be women in grades 10 and up with an expressed interest in science, medicine and/or engineering. We would very much appreciate if you could pass this information along to any high school principals, high school science teachers or high school students you may know.

Applicants should be directed to fill out our online application in advance of the September 27, 2018 application deadline.

Additional information can be found on our website: www.perryinitiative.org The application may be accessed directly using the following link: <http://perryinitiative.org/programs/student-online-application/> More information and a printable flyer for this event can be found here.

Please feel free to contact me directly with any questions you may have.

Again, we sincerely appreciate your help in identifying qualified applicants for our program.

All the best,

Hannah Heuschneider, Program Coordinator
